Re: DoubleDown

Interactive Co., Ltd.

Amendment No. 2 to

Draft Registration Statement on Form F-1

Submitted May 18,

2020

CIK No. 0001799567

Dear Mr. Kim:

We have reviewed your amended draft registration statement and have the following $% \left(1\right) =\left(1\right) +\left(1\right) +$

comments. In some of our comments, we may ask you to provide us with information so we

may better understand your disclosure.

Please respond to this letter by providing the requested information and either submitting

an amended draft registration statement or publicly filing your registration statement on $% \left(1\right) =\left(1\right) +\left(1\right) +$

 $\ensuremath{\mathsf{EDGAR}}.$ If you do not believe our comments apply to your facts and circumstances or do not

believe an amendment is appropriate, please tell us why in your response.

 $\hbox{ After reviewing the information you provide in response to these comments and your }$

amended draft registration statement or filed registration statement, we may have additional

comments. Unless otherwise noted, where prior comments are referred to they refer to our letter $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1$

dated March 27, 2020.

Amendment No. 2 to Draft Registration Statement on Form F-1

 $\label{thm:management} \mbox{Management's Discussion and Analysis of Financial Condition and Results} \\ \mbox{of Operations}$

Our Marketing Efficiency, page 51

1. We note your response to prior comment three. Please clarify what you mean by acquisition of players through paid channels. Paid channel fees to your marketing partners would appear to be fees paid to those partners to acquire players and therefore it is not clear why an efficiency measure on the payback of those fees would

include revenues from

your organically acquired player revenues.

Daga 2

Certain relationships and related party transactions, page 103

2. Please add disclosure related to the acquisition of Double8 Games Co., Ltd. from

DoubleU Games. Refer to Item 7.B of Form 20-F.

Note 2. Significant accounting policies

Basis of preparation and consolidation, page F-7

3. Please disclose the cause, nature and amounts of the line item adjustments to $\ensuremath{\mathsf{I}}$

the Consolidated Financial Statements for the periods presented on page F-3. Tell us your $\,$

consideration of these adjustments as error corrections and the need

for expanded
disclosures. In this regard, we note that net income for 2019 declined by \$3.5 million
(approximately 10%) compared to the amount as reported in the previous amendment.

Refer to ASC 250-10-50-7.

Revenue recognition, page F-10

4. We note per your response to prior comment seven that the deferred revenue balance was

\$1.8 million at December 31, 2019. Based on the actual amount of virtual currency

outstanding, which includes fungible purchased and free virtual currency, please make

clear how you calculated deferred revenue and how you considered free virtual

currency in determining the average price of all virtual currency outstanding in the paying $% \left(1\right) =\left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left(1\right) +\left(1\right) \left(1\right) \left$

players' accounts at the end of the reporting period.

Please provide an example computation or additional analysis that demonstrates how

combining the purchase time metric with other metric analysis such as, average chip

balance, daily average game play and daily average wagers reasonably supports your

assumptions that the currency is consumed as game play between one purchase and the $\,$

next, or five days.

Contract assets, contract liabilities and other disclosures, page F-11

5. We note your response to prior comment eight. We refer to the benefits of your loyalty

program ("Diamond Club") as described

on https://doubledowncasino1.zendesk.com/hc/en-us/articles/204901214. It appears that

loyalty points earned for chip purchases provide a material right as loyalty members are

entitled to incremental benefits that do not reflect their stand-alone selling price.

Additionally, such benefits (i.e., higher payout levels on the Daily Wheel, gifting options

greater than the standard 3-gift limit, and VIP vouchers that enable benefits of a chip sale)

are only available to certain loyalty members based on their Club tier status attained

6. As disclosed, on May 15, 2020, DoubleU Games ("DUG") exercised the call option to $\ \ \,$

purchase the 2.5% Non-convertible Bonds with warrants issued to STIC and exercised the $\,$

warrants by surrendering the 2.5% Non-convertible Bonds into 306,539 common shares at $\,$

the exercise price of KRW 293,600 (US\$240.03 at May 1, 2020 with initial conversion $\,$

price of \$254,00). Concurrently, STIC agreed to convert the 2.5% 7-year convertible

bonds into 715,258 newly-issued common shares at the conversion price of KRW 293.00

(US\$240.03 at May 1, 2020) no later than June 5, 2020. Please disclose the financial

impact of these transactions and clarify whether the down-round and

contingent beneficial

conversion provisions have been triggered. We note the change in the conversion price.

See ASC 855-10-50-2.

You may contact Kathryn Jacobson, Senior Staff Accountant, at (202) 551-3365 or Craig

551-3365 or Craig Wilson, Senior Advisor, at (202) 551-3226 if you have questions regarding

comments on the financial statements and related matters. Please contact Jeff Kauten, Staff Attorney, at (202) 551-

3447 or Kathleen Krebs, Special Counsel, at (202) 551-3350 with any other questions.
